ASTRILL VPN · INDEPENDENT GUIDE

# DNS and IP leak test worksheet

Run this after setup and after every major app update.

## Record your results

| Check | VPN off | VPN on | Pass? |
|---|---|---|---|
| Public IP address | | | |
| IP location | | | |
| DNS servers shown | | | |
| WebRTC IP shown | | | |

## What a pass looks like

1. VPN-on IP and location match the server you chose.
2. DNS servers do not belong to your home internet provider.
3. WebRTC test does not show your real public IP.
4. If anything fails: change the protocol, check DNS settings in the app, and retest.

Get the genuine Astrill Vpn app from our download center: https://astrillvpn.app/download . This guide contains no software.
